**THE WHITE EAGLE LODGE IN IRELAND**

**THE  
SHINING  
STAR**

**ISSUE NO. 9 — AUGUST, 2011**

Dear Friends,

Following a very successful two-day workshop in May at Glendalough, on the theme of the Rose and the Star led by Jeremy Hayward, one cannot help but be keenly aware of the beautiful spark of Light in every human heart, and just how radiant and powerful that allows us to become.

It can be helpful to remember this when from time to time we find ourselves in a dark and frightening place with lots of material concerns. If we can only remember, or realise for the first time, that our Spark or Inner Light is pure Spirit. That makes us Spirit beings in a physical body and this realisation can give us hope and a feeling of being loved. This in turn can lead to excitement and joy. Feelings that keep us out of that dark material place and keep us in the sunlight.

In addition if we were able to pay full attention and take in what we see around us, people, trees, flowers, animals and cars, to name but a few. This seeing and paying attention can keep us in the present, and if fully in the present we can't be in that dark place as well. We can't be in two places at once. So let the Spark of Light in you grow and expand by focusing on that beautiful six pointed Star and gradually you will feel an inner peace and an inner strength to help you keep on keeping on.

## The Principles of the White Eagle Lodge

*The White Eagle Lodge teaches:*

1. That God, the Eternal Spirit, is both Father and Mother.
2. That the Son - the Cosmic Christ - is also the light which shines in the human heart. By reason of this divine Sonship, all are brothers and sisters in spirit, a brother-sisterhood which embraces all life, visible and invisible.
3. The expression of these principles in daily life, through service.
4. The awareness of the invisible world, which bridges separation and death and reveals the eternal unity of life.
5. That life is governed by five cosmic laws: Reincarnation, Cause and Effect, Opportunity, Correspondences and Compensation (Equilibrium and Balance).
6. That the ultimate goal of humankind is that the inner light should become so strong and radiant that even the cells of the physical body are transmuted into finer substances which can overcome mortality. This is known as the Christing of the human being or, in the words of the ancient Brotherhood, the blooming of the Rose upon the Cross of matter.

## White Eagle Meditation & Visualisation

### THY WAY, NOT MINE

**BE PATIENT**, brethren. Your work is in the plan, and the plan will unfold when you yourself have learned wisdom; when you have been prepared, perhaps through extreme difficulties in your physical life, for the work you have to do. Your troubles and frustrations are all part of your preparation, all helping you to become a more receptive instrument for the power of the spirit. Obey your conscience, the word of God in your heart. Bear difficulties courageously and never lose faith.

We have said throughout the years, 'keep on keeping on'. This is the magic phrase – steadfastness. Pursue your path in spite of obstacles and difficulties. Sometimes the tests come thick and fast until you feel that you have had quite a battering; as you get up from one test, down you go with another. Do not be discouraged by this, but keep on faithfully, trusting that divine love and law which will eventually bring truth and wisdom within yourself; for you learn, not through words, but through your reactions to the tests.

When you can kneel before the altar of your inmost being and say, 'Not my will, O Lord, but Thy will. I Humbly accept,' then strength will come to you; joy will light your life and you will see truth; you will see divine law at work in human life, in spiritual evolution, brings indescribably happiness.

The brethren bless you and tenderly love you. Think of their love for you and it will help you upward. They know your need; the supply is limitless.

*Remember that if you wish to contact me for healing, meditation, books or just a chat, I am available most days. You can ring me or email me at home.*

*We visualise the symbol of the cross of light encircled by light. The cross is man himself in incarnation but held always in the circle of God's love. Try to feel that you are the cross, with arms outstretched in giving and surrender to God's great love. As you do so you become aware of a perfect rose at the centre of the cross – your heart.*

*As you meditate, the rose grows in size and you are enfolded in its fragrance – you are within the temple of the rose; its walls are soft and translucent, shining with rose-tinged light. You are surrounded by your spirit brethren and supported by their love.*

## WHITE EAGLE INSPIRATION

### Your Christ-self

Every day on awaking and many times during the day, particularly when you are being overwhelmed and harassed by the affairs of the physical life, pause and remember that it is the little self, the human personality which is being tried and then understand that above you in the invisible realms is that greater self, the Christ-self.

Look into that form of glorious colour, that radiant life and you will feel infinite power flowing into your personality, of a self which is limitless, which is living in God.

angel and the guide. Cultivate the habit in full consciousness of them, and give them your confidence, for they are God's messengers.

*There is another part which the guardian angel has to play, which is linked with a person's karma. White Eagle describes it thus: In the degree the soul responds to heavenly influences and is thereby advanced on the path, it will also be beset with human problems. You can respond to these difficulties—often in human relationships—either guided by the higher spiritual impulse, or by the instincts of the lower self. The guardian angel is the helper of the soul when it desires to be helped and does so by guiding it, by strengthening it. Angels are God's messengers sent to help a person through spiritual experiences. Every time you respond to a higher, to a good, to a spiritual impulse, you are helped by your guardian angel.*

## Guarded and Guided by Angels

We would have you conceive of the spiritual realms as spheres of life, of form, of beauty reaching from earth to the highest heights of heaven. Yet even the highest heights can be contacted from the earth. Spiritual beings can descend through the planes or make a link through some harmonious channel until they contact a man or woman on the physical plane. The humblest child of God is not without his or her guardian angel. The chakras of your etheric body are focal points through which these guides and angelic helpers make their contact.

At the time of a person's birth, and even before the actual birth of the baby, the guardian angel is at work. It is actually when the soul takes the decision to reincarnate that it comes under the care of the guardian angel. As it draws nearer to its future parents the way is prepared spiritually.

The guardian angel is concerned with the formation of the physical body. But there at the human birth is not only the angel but also the presence in form of divine Mother. The guardian angel remains with the soul during the whole of its life, and when the soul passes onward receives the soul in the spirit world.

The guardian angel works under the direction of the lords of karma, because the soul in its charge has come back in order to pay its karmic debts and thereby to learn certain lessons. The guardian angel is there to inspire, guide and help, but never to force the soul. Humanity's gift of freewill is always respected. The soul must choose, but at the same time you get this helpful angelic influence.

So every soul has its own guardian angel (who is called the angel of records, because he or she is in touch with the lords of karma) as well as the companionship of its guide. As you come into your physical incarnation you are accompanied by the two of them, the
