

Prayer for Northern Ireland

In the silence we attune in spirit to the great healing angels of the Christ Star.

We visualise a blazing six-pointed Star, its rays of power, love and wisdom shining down on the whole of Northern Ireland.

We see the light of the Star become a bright silver light, lifting the thought-atmosphere. The lower thought-clouds melt away in this silver light and a great cross of Light within a circle of Light encompasses the whole of Northern Ireland.

We see every soul blessed by the Christ Light and enfolded in the sweet fragrance of the Rose of brotherhood – North, South, East and West. The Rose of brotherhood and goodwill blooms in the heart of Northern Ireland.

The golden healing light of the Star illumines the hearts and minds of all people, bringing hope... and bringing comfort to all those who suffer. We hold the children and young people of Northern Ireland in the strong protection and inspiration of the Christ Star.

The healing light of the Star shines into Mother Earth and flows into the world of nature: the land, the creatures, and the water - cleansing and renewing, growing ever more beautiful.

We see the Northern Ireland Star Centre in the heart of the golden Rose. We see its petals representing all the members and friends of the loving family of White Eagle coming together to form the perfect flower.

Rest awhile in the centre of this Rose and breathe forth peace.

Now we give thanks for all the blessings we receive and we carry the love and light of God, the Great Spirit, within us to radiate in the areas in which we ourselves live and to all the people we meet.
