PRINCIPLES OF THE WHITE EAGLE LODGE

The White Eagle teachings are universal, timeless and unconditionally loving. They are respectful of the path of each individual. In a consistent, comprehensive philosophy, White Eagle opens the mind to the spiritual laws which govern all life which we can learn to work with.

The Principles of the White Eagle Lodge

1. That God, the Eternal Spirit, is both Father and Mother.
2. That the Son, the Cosmic Christ, is also the Light which shines in the human heart. By reason of this divine Sonship, all are brothers and sisters in spirit, a brother/sisterhood which embraces all life visible and invisible.
3. The expression of these principles in daily life, through service.
4. The awareness of the invisible world, which bridges separation and death and reveals the eternal unity of life.
5. That life is governed by five cosmic laws: Reincarnation, Cause and Effect, Opportunity, Correspondences, Compensation (Equilibrium and Balance).
6. That the ultimate goal of humankind is that the inner light should become so strong and radiant that even the cells of the physical body are transmuted into finer substances which can overcome mortality. This is known as the Christing of the human being, or, in the words of the ancient Brotherhood, the blooming of the Rose upon the Cross of matter.

Over and above all is the law of Love:

'A Master is one who has learnt the truth, through experience; he has learnt to put into practice the law which governs all life—the law of love. Love is the fulfilling of the law...There is only one way to receive love into human life, and that is to give love forth.'

White Eagle

ROSE STAR

Greetings dear friends,

This is the first Shining Star newsletter since Derek Smyth, our dear Brother and Ireland Leader of many years, retired. White Eagle Republic of Ireland has become an independent European Star Centre, in my care, and Northern Ireland is now a separate UK Star Centre lead by Derek's partner Nicola. While this is a far-reaching administrative change, we are still very much united in White Eagle's Brotherhood work. As a European Centre, we are now in charge of our own membership and the fees will come directly to us. (Further information about membership can be found at the end of this newsletter.)

We are now living in the Aquarian Age and all the turbulence that comes with such a major shift is being felt in all areas of our lives - and in the world at large. So much that was hidden is coming up into the light to be transformed. So much of the authority that was automatically conferred on institutions of church and state is now coming into question and with it a new 'coming of age' of self-responsibility and a desire for shared, self-determining communities instead of hierarchical systems. How can we adjust and grow gracefully into this new energy? White Eagle foresaw this shift and his teaching offers much guidance on how to attain the much-needed balance necessary for these times. He lays special emphasis on the essential role of the feminine and the Divine Mother principle with her tender care, attention to the needs of others, inclusivity and compassion.

..."The coming age of Aquarius will certainly bring into prominence the Mother or the Woman aspect of life. In other words it is indicative of the development of intuition or increase of soul power among the people of the earth. The first principle, being representative of the Father or the Will, must be balanced by the Mother or the Intuition. When you get perfect interplay, perfect interpenetration of these two principles—the will or power and the love and the wisdom—when you get perfect blending of these two principles of creation, then is brought forth the Christ Child, which is the perfect outcome of union between the two principles."

...“The place of woman in the world will have to be recognised. During past cycles or ages humanity has been unbalanced. That is quite obvious. Woman has yet to be accorded her correct place in world affairs...

...“Until man and woman live in perfect partnership, each playing their part in the evolution of the race, there cannot be real progress. With the coming of this feminine aspect and the balancing of life there will be great progress on your earth. There must be equality, spiritual equality, mental equality, there must be mutual respect and true partnership between man and woman. This state of affairs will mitigate many of the ills which still exist. The uprisings in the world, although they bring much pain and suffering, are necessary to arouse man’s understanding to the spiritual law of brotherhood.

...‘In the age of Aquarius woman will hold a position in public life, but not to dominate or overpower the masculine element. There should also come a recognition of, a realisation of the need for, the Mother-influence upon humanity - which influence, remember, brings wisdom and love and faith to people.”

In Ireland we are blessed to have a continuous living tradition that recognises the Divine Feminine. She is honoured in the church as Mary the mother of Jesus, she is Brighid, ancient goddess and, more recently, Celtic Christian saint, along with a great company of goddesses and wise women going back through the ages. Brighid, with her qualities of creativity, crafting, healing and care for animals and the land brings us a great sense of the practical power of the feminine. She confers courage, skill and compassion within the encompassing love and protection of her great cloak.

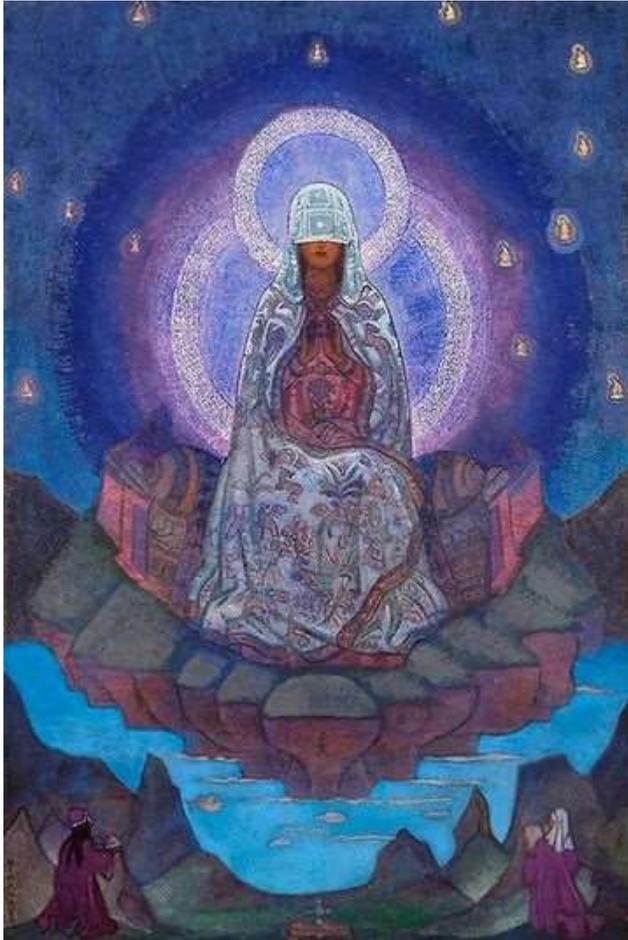

Along with Brighid, Kuan Yin is an expression of the Divine Feminine that I especially love. She embodies qualities of tenderness, compassion, mercy and service - she is the mother who comes to heal the heart of humanity, ever present to suffering. Recently Colum (Hayward) visited us to lead a beautiful White Eagle retreat on the influence of St John in the Celtic church and to dedicate our Star Centre. I was delighted when, on seeing several statues of Kuan Yin about the house, he remarked that Minesta (Grace Cooke) had had a strong feeling for her. He remembered that for many years a beautiful jade Kuan Yin stood in the Brotherhood library at New Lands, the gift of Radiance and Michael Collishaw (along with others), both of whom specially guided my way in the London Lodge so many years ago. This was a remarkable affirmation for me of a continuous sense of meaning and connection along my path.

May the tender love and wisdom of Divine Mother enfold us in deep peace, may the strength and will of Divine Father empower our thoughts and actions in ways of service and may they unite to birth the radiance of the Cosmic Christ Child in our hearts.

I hope we will have an opportunity to connect over the coming year and that you shine your light with great joy and confidence.

Much love,

Jacque

Divine Mother

The kingdom of nature is thirsting for the spirit of divine motherhood and that gentle love and wisdom which rules all life. Picture her manifesting not only through physical form, but as the Divine Mother in all nature - as the Mother Earth, producer of all life, beauty, purity and sweetness, and of the food so bountifully given to sustain the human race. You could not live without the bounty of Divine Mother. Try to feel a sense of thankfulness which will develop into worship and adoration of the supreme love and power. There is so much to fill you with happiness.

Earth Healer
Above all, the Law of Love

You stand at the commencement of a new age both of brotherhood and of the spirit; the new age of Aquarius, with its vast potential for destruction as well as progress. At this time, it is necessary for all people who understand the power of the light to call upon the angels of the light, and to give their allegiance to all that is good and Godlike, so that the white light may maintain the equilibrium and bring human kind into the golden age which is waiting to manifest on earth...the great thing you always need to remember is that the supreme law of love rules, above all and through all. There is always, that loving care and watchfulness which guides and helps the ship into harbour.

White Eagle, On Living in Harmony with the Spirit

Creating Beauty

When you work from the spirit you are creating beauty and helping humankind to absorb and to express beauty, in all its forms... the most ideal subjects for meditation are to be found in nature. This form of meditation is very simple, but the more you repeat it, the more it will help you in your work. If you begin by concentrating on beauty in all its forms, we assure you that you are not neglecting suffering, or the inequalities of life. Give from your heart the perfect love and see your beautiful world cleansed of all pollution. See the beautiful earth used by humanity according to the law of God - humankind giving back to the land what they receive from it.

**DEREK SMYTH - OUR SHINING
STAR**

Derek Smyth, Brother Shining Star, established the work of the White Eagle Lodge in Ireland when he became Leader of the Ireland Star Centre fifteen years ago on 2nd March 2005. From a few pilgrim souls the membership has quietly grown under his devotion and patient care. Always ready to lend a sympathetic ear and offer the right words of wisdom and kindness to

those in need, it's not at all surprising that Derek has pioneered the White Eagle healing work here. He is Contact Healing Supervisor for the White Eagle Healer training which is now available for the first time in Ireland.

Thank you Derek for giving us such a beautiful foundation for the work in Ireland and for providing us with the inspiration to carry it forward. You are truly a Shining Star!

MEDITATION

A Meditation on the moon and Divine Mother's Pearl Ray

Beside the sea, let us meditate upon the beauty of the Moon shining on the water and feel the strength of the movement in it - the transforming power of water bringing forth new understanding of the rhythms of life, the constant flow and change of life like the tides.

As you meditate, if your inner ears are open, you may hear the sound, the sound of love, the sound that causes all things to be, the Creator's Word, the great AUM.

Open yourself to the presence of Divine Mother and the angelic beings of her ray of love and wisdom. As you do this you will be drawn into her heart and enfolded in her soft, pearl robe, which contains all the colours of the earthly spectrum. It is soft and translucent; it is her rainbow shawl of healing comfort.

Rest in this comforting healing light and open yourself to the vibration of the angels of the Moon and of Venus. Their vibrations are closely linked with Divine Mother and blend perfectly in this soft, nurturing light. Enfolded in this light, the pupil on the path can gain a deeper understanding of love. What is love? What does love mean? What does love mean in life as we know it on the earthly plane?

How can this love relieve the suffering that is experienced by so many incarnating into a physical body? This pearl ray of Divine Mother is infinite love and blends with the power of the first ray of creativity, so that relief of earthly suffering can come. Rest now in the heart of the pearl ray, with the great angels of the Moon and Venus, the planet of love. Be still in the heart of this radiance, and then affirm many times within your heart:

'Be still and know God in me, God's love in the flame in my heart; God's love in the heart of Divine Mother'.

THE LIVING WORD OF ST JOHN

The Living Word of St John White Eagle's Interpretation of the Gospel

Preface

Working on the manuscript has been a labour of love; as chapter after chapter unfolded one became utterly uplifted by the sublime over-all theme which built up, of the redemptive power of the Christ spirit through the everyday life of man. The unseen often seemed very close and there was one particular day when the gospel suddenly became almost unbearably alive and immediate. It was no longer a question of looking back to happenings of two thousand years ago and works of men long dead; the words became alive and the whole story was in the present, as seen and felt through the eyes and ears of the 'disciple whom Jesus loved'. Both were so real and human and loving of mankind today. It was an experience impossible to express adequately in words, but the memory will be with me always. (extract page viii)

Ylana Hayward March 1979

The Nineteenth Chapter

The Blooming of the Rose

There is so much behind and within the teaching of Jesus that only the heart can understand. For two thousand years men have been seeking understanding on the mental plane, at the mental level, but seeking largely in vain. There have been those, however, who have not only read the ancient scripts but who have entered the inner sanctuary to meditate and absorb the light. There they have found truth; but truth can only really be found when the heart is selfless at the time of meditation, and when it so aspires that the outer life also becomes selfless, with thought only for the needs of others. In such a one the rose starts to bloom and shed its fragrance through the life.

Love is the power by which a master works his white magic. The greatest power in this world or the next is love, and love is power, love is wisdom. Wisdom, love and power are inseparable - three in one and one in three. (extracts page 162)

Greater love hath no man...(15:13)

This chapter recounts (two more) occasions where Jesus deliberately set himself to release someone from the karma which must result from following a certain course of action. Thus is brotherhood demonstrated - how by selfless action, a man can save another from incurring karma of great suffering. (Page 163)

If a man lives by love, all will come right in the end. Love is supreme over all. Do your best, act from the heart of love (which means putting into practice the divine law in your life), and you may have confidence in God that all will be well. (Page 165)

His (Jesus) whole ministry was directed towards helping others either transmute their karma or to work it out in a higher or better way. Upon all who have a deeper knowledge of the divine laws rests a like responsibility - to help those they meet not to make additional hard karma, but rather create good karma for the blessing and happiness of all mankind in the future. (Page 168)

O Father Mother God, make clean our hearts within us so that we may see the vision of the true life which Thou wouldst have us live. May we be filled with the light of the Christ spirit and dwell in peace with our brother. Thus may we know Thy peace, always. Amen (Page 169)

LOVE AND LIGHT

Recently I began to ponder upon the words "love and light" and what it is that I am doing when I send out love and light to another. There is an immense power and energy behind the act/intention of sending out love and light that suddenly struck me.

Love

Unconditional love going from one heart to another is a powerful vibration of the purest form, it reaches across time and space, knows no boundaries and goes directly to where it needs to go and delivers what is needed To the person or situation.

Light

When we are infused with light we shine from within, we are calm and poised and less disturbed by events in the outer world than we might otherwise be. Our light can help others to find their path and even help to lift others who may be faltering along the way.

Together love and light are powerful forces for when we endeavour to live our lives filled with them we cannot think or act in any way that would be detrimental to another's wellbeing (and so of course our own).

We clearly see our connection to all living beings and mother earth herself. In doing so we see our own selves, our own light, reflected back to us. So as we give out light and love we receive it back in all its immensity and glory.

"When we touch the place
Of true love,
There is no separation.
There is no question of
Separating any individual
From his brother, her sister,
Because all the children of god
Become one when we truly love "

THE RADIATION OF THE STAR

You ask us, "White Eagle, what can we do to help mankind?" And we answer: There are many ways open to man, but there is one unfailing, one certain true way for man to establish God's kingdom upon earth; this is by the light which is within himself. Daily endeavour to realise your true self which is buried deep in your innermost being. Remember always the quiet, pure and true contact within the sanctuary of your own being. Be true to your own self, your own spirit, and in being true to yourself you will be true also to God and the universal brotherhood.

Practice this daily realisation of the great white light within your own being and project it forth into the world of men. Then, my friends, the mists around the earth will gradually be dispelled. Do not look to others to do the work for you. Every man is his own saviour, and every man is the saviour of all mankind.

When in the quietness of your sanctuary you are attuned to the Christ spirit, you are beginning to feel and know a power which is creative in life, and in your worship of God you can bring into operation the power of your higher mind to create form. Create, visualise the blazing six-pointed Star, still yet full of life and light. Identify yourselves with the Star, the centre of that Star; in your imagination enter it, go right into the heart of the Star. It is a Star of the Christ love; so gentle, yet firm and all-powerful for good. Feel the light radiating forth to bless, to comfort, to heal. Hold the souls of men, or of any individual you wish to help, within the heart of the Star, and see them perfect in the light, the sunlight of God.

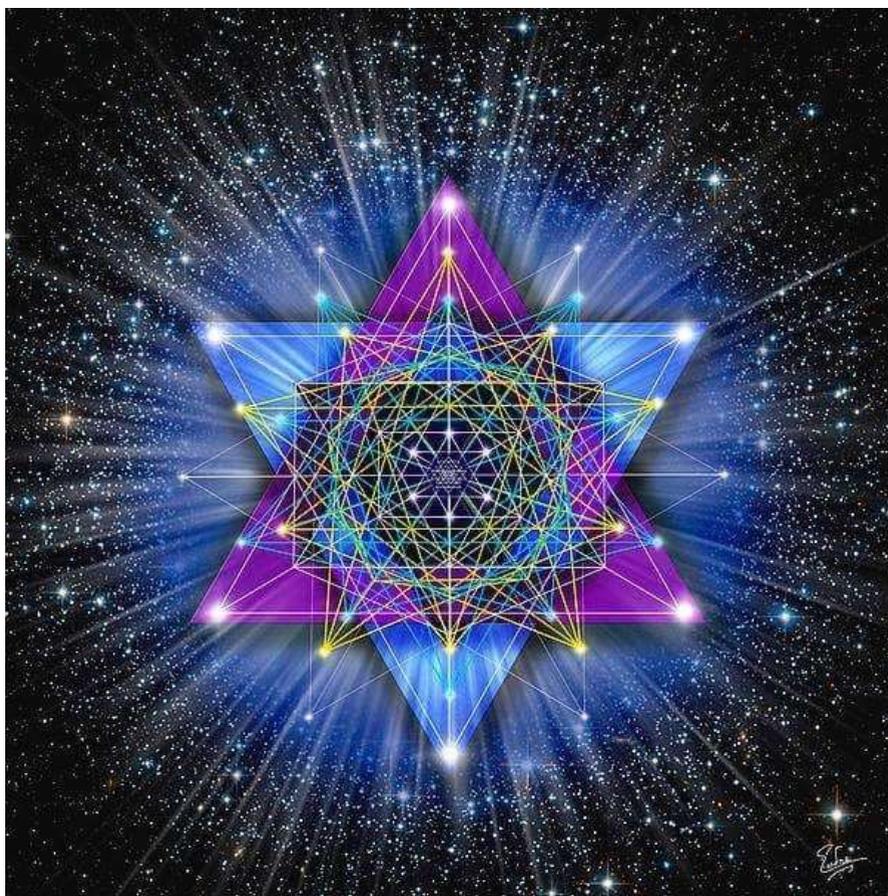

When you surrender in love and simplicity to the Christ spirit, the form you are imagining is given life by the power of God. Your thought creates the form, but the love in your heart gives life to that form and sends it forth to heal the sick, to inspire peace and brotherhood in the world of men. Brothers, let us send forth the light of the Star."

The Star with six points is a symbol of the Christ spirit, of man made perfect. It is a symbol of the New Age. Spiritually we now stand at a new age of consciousness, when a gradual recognition will dawn that man must work in co-operation with God; that man cannot shuffle off his responsibility upon God. In this age every activity for the welfare of man will play its part, and perhaps the most the most far-reaching will be that putting forth of man's own

powers of the soul and spirit in the form of prayer. Men will train and dedicate themselves to this end. This will be their form of expression, their form of service to their fellows and of co-operation with higher powers.

THE NATURE OF THE STAR

What can we say about the nature of the six pointed star that acts as such a powerful focus for the work of the White Eagle Lodge? The answer, in my view, cannot be limited to the Lodge itself. We, who are members, must at least aspire towards a divine liberation for all of humanity.

Consider the challenges to spirituality across our world which is currently under immense pressure to create and support a satisfying spiritual community. This is surely where our White Eagle work comes in. We know there is comfort in resting, trusting and simply allowing the rays from the six-pointed Star to be absorbed into our very being. We are confident in our belief in a reality which moves beyond the physical world to embrace Masters, Angels, spiritual beings, our loved ones and — not least — ourselves.

Against the background of this belief, we all come together to form a deep connection with God. As brothers and sisters of the Star we allow ourselves to expand our consciousness towards the Cosmos, enriching ourselves with an immensely powerful force. This is a gift that has been given to us by God's grace, permitting each and every one of us to absorb the spiritual light, and granting the ability to carry the light to those who may not yet fully understand or trust the magnitude of the Cosmos.

The power to touch another's heart with the love bestowed on us by God is a basic tenet of our community. The light that illuminates our hearts is love. This radiates from the light of Christ and can be embraced by all of us collectively. Such is the foundation that supports the Star.

INSPIRATION

THE POWER OF LOVE

Love is the most profound secret of the universe. It is the beginning of life; indeed, it is life itself...

Through gaining love, man/woman gains understanding of its life on earth and in the heavens, and the life of the wide universe of which it is a part. The greatest mistake you can make is to think of yourselves as separate from God or from the universe into which you have been born. You are all part of the one whole.

White Eagle, Beautiful Road Home

THE DIVINITY WITHIN

In your heart is a seed, placed there by God, which is the seed atom of life; and when you understand the great law of love, when you are operating this law, this seed in your heart can put you in direct touch with that all-embracing Light of life.

When we speak of the seed, we refer not to the soul, but to the pure spirit. The soul is the garment of the spirit, the etheric body that is the individual's link between heaven and earth. The soul receives impressions from the creative sphere of pure light and transmits these impressions to the human brain. And with the love in his or her heart, the light within his or her heart, the individual will use that power to create beauty - will create in sound, create in colour, create in form, create in language, create within his or her own life.

All people have within them this power to create, which is illumined, quickened, by that pure white light, Spirit. And spirit is all love. This is why, until a man or woman loves, and understands what love is, he or she is unable to create perfectly. Perfection comes only through that pure Christ love. And this love, which we have described to you many times as light, is the power that causes the seed-atom in the heart to grow...

As it continues to grow in you, don't stifle it: encourage this feeling of love, of tolerance, of goodwill. Encourage it, because as you do so you are growing in spiritual power and wisdom. If you could see clairvoyantly you would know that that seed was a spark of life, and this life would appear to you as light. You would see that little seed as a fire.

In ancient times the priests would create fire on the altar from seemingly nothing. The priest would place his hands in a certain way, and say certain words and there would come the little light and then gradually the fire and the fire would grow to a great blaze - a demonstration to our people of the life of God, which came out of space, out of silence, into manifestation in physical form.

We see the white light shining through the little earthly seed, and drawing it up from darkness towards the sun, until it breaks its bonds, helped by the sunlight, and is transformed out of the tiny seed into the green corn, or a perfect flower. This again is a demonstration to humanity of the existence of an invisible power, a life which is in the ether all around - but most of all in the human being itself.

WHITE EAGLE HEALING

Healing is a core part of the White Eagle work in Ireland. Members, by spending as little as 30 minutes a week, can make a huge contribution when they send thoughts of love and healing in a structured format, to each or all of the following: people, animals, nature - trees and plants and Mother Earth herself. White Eagle, in his messages to us, explains how the Angelic Realm works with us and uses the vibrations created by human loving thoughts by directing them to those areas in greatest need.

There are 4 areas you can choose from to make your personal contribution to this vital time in the Earth's development:

- 1) Earth Healing - directing your thoughts to the nature kingdom, the substance of the earth, the waters of the earth, and its atmosphere.
- 2) Animal Healing for named animals with specific conditions and their owners.
- 3) Lone and Absent Healing for named people with specific conditions.
- 4) Training to be a White Eagle Contact Healer where patients have one to one healing, working on their identified conditions.

Please note for areas 3 and 4 you will have been a member for a minimum time period.

For more information on any of these areas or if you wish to receive healing please contact Jacquie Brennan, burgessjacquie@gmail.com or on 059 9151057.

I would like to take this opportunity to wish you all blessings for 2020.

SENDING OUT THE LIGHT

A large part of the Lodge work is to participate in the healing of humankind, the animal kingdom, all nature and Mother Earth. We do this by doing our best to think good thoughts about everything. Remember, we are like TV aerials and we radiate what we think. Good thoughts heal; while heavier, more negative thoughts can slow down healing.

At the hours of 3, 6, 9 and 12, when we send out the Light, we send healing because the light we radiate from our hearts is the Christ Light and that light has the power to heal because it is unconditional love.

WHITE EAGLE LODGE INVOCATION

May the Light of Christ, shining in my heart,
stand guard over my thoughts and guide
my speech and actions into ways of service.

May the Light of Christ shine from my heart
to heal the sick in mind and body;
to comfort the bereaved; to sustain the weary.

May the Light of Christ illumine my understanding
and the understanding of all, bringing true vision
and awareness of the eternal life,
and of the Christ within all.

Amen
